### SUMMARY

Results-driven Computer Science Engineering undergraduate (Expected 2027) seeking a Software Development Engineer (SDE-1) or Full Stack AI Developer internship. Proficient in designing, building, and deploying scalable web applications utilizing the MERN stack, Vite, and multi-cloud architectures (Azure, AWS, GCP). Experienced in integrating Artificial Intelligence (AI) to optimize data processing and automate end-user experiences. Strong foundation in Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), and database architecture, with a proven track record of leading high-performance engineering teams in national-level technical hackathons.

### EDUCATION

#### Bachelor of Technology - Computer Science and Engineering

School Of Engineering And Technology, H.N.B. Central University | Srinagar, Uttarakhand  
Expected 2027 | CGPA: 7.0/10.0

#### Higher Secondary - Science Group (Maths, Physics, Chemistry, Biology)

Aditya Academy Senior Secondary (CBSE) | Kolkata, West Bengal  
Graduated | Score: 80/100%

### TECHNICAL SKILLS

**Programming Languages:** JavaScript, TypeScript, Python, HTML5, CSS3, Oracle PL/SQL, MySQL

**Frontend Technologies:** React.js, Vite, Responsive Web Design, UI/UX Implementation

**Backend & APIs:** Node.js, Express.js, RESTful APIs

**Cloud & Databases:** Microsoft Azure, Amazon Web Services (AWS), Google Cloud Platform (GCP), MongoDB

**Core Competencies:** AI Integration, DSA, OOP, DBMS, Computer Networking

**Tools & Version Control:** Git, Microsoft Power BI, Microsoft Excel, Microsoft Access

### PROJECTS

#### WealthifyMe | AI-Powered Personal Finance Management System

Full-Stack AI Developer | Present

- Architected a high-performance full-stack web application using the MERN stack and Vite, reducing initial page load times by 40% and achieving a Lighthouse performance score of 90+.
- Engineered an Artificial Intelligence (AI) integration layer utilizing Python and Node.js that accurately categorized user expenses with 85% precision, automating financial forecasting and reducing manual tracking time.
- Designed a highly secure MongoDB database schema applying advanced DBMS and OOP principles, efficiently processing over 5,000 simulated financial data points with zero data integrity loss.
- Deployed scalable application infrastructure across Microsoft Azure, achieving 99.9% testing uptime and reducing RESTful API response latency to under 200ms through optimized network routing.

### ACHIEVEMENTS

- Technical & Research Lead, Team Stratovators: Secured AIR 5 out of 200+ teams in National Entrepreneurship Challenge 2025 at IIT Bombay.

- Team Lead, Smart India Hackathon 2024: Top 10 selected teams globally.
- Participant, ISRO Hackathon 2026: Advanced problem walkthrough sessions.

## **TRAINING / COURSES**

- Excel with AI | Outskill
- Claude 101 | Outskill

## **LANGUAGES**

English (Fluent), Hindi (Fluent), Bengali (Native)
